47 HRS

**LENGTH OF CERTIFICATION:**  
LIFELONG

**ACCREDITATION:**  
CITY & GUILDS

## WHO SHOULD ATTEND

This unit is for managers that are responsible for organising planning and managing work in confined spaces. The manager may or may not supervise the actual job. It involves managing the work of others in, or at confined spaces; reviewing legal requirements; ensuring safety compliance; preparing procedures and appropriate documentation; and making suitable arrangements for dealing with emergencies.

## COURSE AIM

To reflect the national occupational standard for planning, managing and reviewing legislative and safety compliance for work in confined spaces. This unit covers both water and non-water industry areas.

## TRAINING METHODS

Each candidate must produce a portfolio of evidence that demonstrates how they have planned and managed work activities within a high risk confined space.

The assessment of this qualification requires assessors to observe candidates individually when planning and managing work activities within a high risk confined space.

## COURSE CONTENT

- Plan the management of work in confined spaces
- Manage confined space teams
- Record and review legislation relating to confined spaces
- Develop, monitor and confirm procedures for working in confined spaces
- Understand environmental, legislative and health and safety compliance
- Understand organisational requirements for confined space working
- Understand plant, tools and equipment for working in confined spaces
- Understand emergency arrangements and rescue plans

## ADDITIONAL INFO

Candidates will have normally completed the relevant 6160 confined space entry qualification for the situations they manage and have managerial and safety awareness experience.

This is designed as a Level 4 Management Course, and is predominantly classroom based.
