

TOWERS WITH BRIDGES FOR USERS

MAX NO. OF DELEGATES:
8

DURATION:
1 DAY

LENGTH OF CERTIFICATION:
5 YEARS

ACCREDITATION:
PASMA / COTS CERTIFICATE

WHO SHOULD ATTEND

Personnel who will be responsible for the assembly, use, dismantling, alteration, moving and inspecting of towers with bridges.

COURSE AIM

How to safely assemble, dismantle, use and inspect standard configuration mobile access towers with bridges without risk of personal injury or to others, using approved build methods.

TRAINING METHODS

Instruction both in theory and practical sessions. Assessment is via a closed book course with a pass mark of 80% in both theory and practical.

ADDITIONAL INFO

Delegates attending this course should be **18+ years** and be physically and mentally fit to withstand the rigours of training.

No formal qualifications or experience are necessary, but it would be beneficial if delegates had a basic understanding of working at height issues.

COURSE CONTENT

- Legislation, Regulations and guidance
- PASMA Code of Practice
- Product Standards
- Assembling, and dismantling towers
- Equipment
- Work environment
- Inspection of completed mobile access towers with bridges
- Completion of Tower Inspection Records
- Hazards

PPE REQUIREMENTS

Suitable head / footwear / eye / glove protection during the practical session. Hard hat, preferable with chin strap.
